

ANISHA BHOLA

Data Analyst | Business Intelligence | Marketing Analytics | SQL | Python | R | Power BI | Excel
Delhi, INDIA | +91 8109394486 | 1410anisha@gmail.com | www.linkedin.com/in/anisha1411 | <https://anisha1410.github/>

PROFESSIONAL SUMMARY

Results-driven M.Sc. Data Science candidate with hands-on experience in data analytics, business intelligence, and statistical analysis. Proficient in Python, R, SQL, Power BI, Tableau, Advanced Excel, Google BigQuery, and Hive for transforming complex datasets into actionable business insights. Experienced in analyzing 5,000+ records, building interactive KPI dashboards, performing exploratory data analysis (EDA), data cleaning, feature engineering, predictive analytics, and machine learning to support data-driven decision-making. Strong foundation in mathematics with expertise in statistical analysis, data preprocessing, model evaluation, and business analytics. Skilled in data visualization, dashboard development, and communicating analytical findings to stakeholders. Passionate about solving business problems through data, improving operational efficiency, and enabling strategic decision-making with strong problem-solving, communication, and cross-functional collaboration skills.

PROFESSIONAL EXPERIENCE

National Fertilizers Limited | Data Analytics Intern | Jun 2025 – Jul 2025

- Analyzed 5,000+ employee and operational records using Python to identify trends supporting operational decisions.
- Developed interactive Power BI dashboards that improved KPI visibility and enabled faster operational decision-making.
- Performed data cleaning, EDA and statistical analysis to improve data quality.
- Presented actionable insights to stakeholders; received a 'Very Good' performance rating.

Prodigy InfoTech | Data Science Intern | May 2025 – Jun 2025

- Built end-to-end analytics workflows including preprocessing, visualization and predictive modeling.
- Delivered business-focused analytical reports using Python and SQL concepts.
- Developed visualizations and analytical reports to communicate model outcomes and support business decision-making.

PROJECTS

- **Sales Analytics Dashboard** – Built KPI dashboards for 10,000+ sales records using Power BI, SQL, Excel.
- **Customer Churn Prediction** – Developed a customer churn prediction model using Python and Scikit-learn, achieving **85% accuracy** and identifying customer retention opportunities through predictive analytics.
- **Mental Health Analytics** – Applied feature engineering, statistical analysis, and machine learning using Python to identify patterns in mental health datasets and generate actionable insights.
- **Real-Time Big Data Analytics for IoT in Public Transport** - Built a real-time IoT and GPS-based big data analytics system for predictive insights and KPI monitoring.

EDUCATION

- M.Sc. Data Science | Chandigarh University | Jul,2024– Jun,2026
- B.Sc. Mathematics | Banasthali Vidyapeeth | Jun,2021– May,2024

TECHNICAL SKILLS

Programming Languages

Python • R • SQL

BI & Analytics Tools

Power BI • Tableau • Microsoft Excel • Google BigQuery • Hive • MS Office

Libraries & Frameworks

Python: Pandas • NumPy • Matplotlib • Seaborn • Scikit-learn

R: dplyr • tidyr • ggplot2 • readr • data.table • caret • shiny • Plotly

Excel: Advanced Excel • Pivot Tables • Power Query • VLOOKUP • XLOOKUP • INDEX-MATCH • Power Pivot

Analytics

Data Visualization • Dashboard Development • KPI Reporting • Statistical Analysis • Exploratory Data Analysis (EDA) • Predictive Analytics • Data Cleaning • Data Wrangling • Feature Engineering • Machine Learning • Model Evaluation

Marketing & Business Analytics

Consumer Marketing • Customer Engagement • Acquisition Strategy • Marketing Analytics • Marketing ROI • Strategic Analytics • Business Intelligence • Business Growth • Business Insights • Data-Driven Decision Making • Strategic Decision Making • Actionable Insights

Professional & Collaboration Skills

Cross-functional Collaboration • Stakeholder Management • Stakeholder Communication • Business Communication • Data Storytelling • Problem Solving • Critical Thinking • Communication • Presentation Skills • Relationship Building • Mentorship • Team Collaboration • Analytical Thinking • Project Management

PUBLICATIONS

- **Smart Feature Engineering: Reducing Dimensionality While Preserving Context** – ICACIT 2026 (Accepted)
- **Impact of Feature Selection Methods in Machine Learning for Mental Illness Detection** – ICICCS 2026, Accepted | Springer LNNS Proceedings

CERTIFICATIONS

- IBM Data Science Professional Certificate
- IBM Data Analysis with Python
- SQL for Data Science – Coursera
- Microsoft Generative AI for Data Analysis – Coursera
- Data Science Internship Certificate – Prodigy InfoTech
- Data Analytics Internship Certificate – National Fertilizers Limited (NFL)

ACHIEVEMENTS

- Received "**Very Good**" performance rating during the Data Analytics Internship at National Fertilizers Limited.
- Secured **1st Position** in the Departmental Data Analytics Quiz at Chandigarh University.
- Authored research on **Machine Learning-based Mental Health Analytics** and **Feature Selection Techniques**.
